- Provide safe and efficient containment of drilling waste for transportation to treatment or disposal sites
- All units designed, manufactured and fully certified to DNV 2.7-1 / EN 12079 standards
- Designed to meet Norsok S-002N requirements to improve health and safety
- Light aluminium lid (max 25kg) for safe and easy lifting, opening/closing
- Due to design there is no need for climbing on units - eliminating risk of falls
- Large lid ensures ability to fill unit to maximum
- Sealed lid prevents any spillages during transportation
- When stacked two high the sling on the upper skip is easily accessible
- Forklift pockets for easy manoeuvring
- Designed for stability - tested up to 32 degrees
