Tubular Transportation Frames, TTF's, from Ferguson are the best method of transporting tubular and pipe for safety, efficiency and cost effectiveness combined.

- The only tubular handling system to be manufactured to the EN12079 standard
- Reduced manual handling - up to 80% less
- No recorded lost time incidents or injuries since their introduction to the marketplace in 1999
- Quick and efficient
- Significant cost savings
- TTF'S can be loaded by forklift
- Available for immediate hire from Ferguson Seacabs

Capacity - 12 Tonnes
